-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

Since the week ending June 27, the cut-off date for this report, exporters have notified USDA that the USSR has purchased 1.7 million MT of soybeans for delivery during the 1976/77 marketing year. Of this quantity, as much as 1.5 million MT could be shipped from the United States, although all USSR purchases have been optional origin basis.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased 68,400 MT, primarily reflecting larger commitments to the Netherlands, Poland, and Yugoslavia. Exports during the week totaled 61,000 MT, primarily to Poland (24,700 MT), Japan (15,500 MT), and Yugoslavia (10,700 MT).

Cotton: Export sales of Upland cotton continued heavy even though world cotton values again strengthened on supply considerations. Sales for 1976/77 delivery rose 143,000 running bales (RB). Canada was the largest buyer. Export sales for delivery in 1976/77 now total 1.6 million RB, double the pace of a year earlier. Weekly exports of 72,500 RB were about average and the unshipped 1975/76 commitment stands at 910,000 RB. Part of this cotton will not be shipped before August 1, as buyer calls against contracts for June-August and July-September delivery have been slower than assumed when contracts were reported.

EXPORT SALES REPORT

Comments on release of July 8, 1976 (based on reports from exporters for the week ending June 27, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1976/77 (year beginning June 1) advanced by 348,700 metric tons (MT), bringing this year's total commitment to 7.1 million MT. Some of the significant increases in commitments were to Japan, 140,300 MT; Chile, 77,400 MT; and the European Community (EC), 73,600 MT. Total commitments to Japan and the EC now stand at 761,800 MT and 691,200 MT, respectively. This week's increases in commitments were partially offset by the decline in wheat commitments to unknown destinations of 118,600 MT.

Feedgrains: The apparent export commitment for corn for 1975/76 (year ending September 30) advanced by 417,000 MT, of which 65,900 MT were to the USSR (these largely reflect destination changes rather than new purchases by USSR authorities). Some of the other significant increases in commitments were to the EC, 224,000 MT; Japan, 104,500 MT; and Portugal, 68,700 MT. Commitments to the EC have jumped by 866,700 MT during the last two weeks, resulting largely from new sales. The acceleration in purchasing activity probably stems from the deterioration in crop prospects due to the current drought conditions in the EC. Corn commitments for the year now stand at 41.1 million MT, of which 9.4 million MT are commitments to the EC. This week's aggregate increases in corn commitments were somewhat offset, however, by a downward revision in commitments to unknown destinations of 111,000 MT. Grain sorghum commitments advanced by 72,000 MT, largely on the basis of increased commitments to Japan. Sorghum commitments for 1975/76 now total 5.1 million MT, with commitments to Japan accounting for 2.2 million MT of the total.

Outstanding sales of corn for 1976/77 shipment (year beginning Oct. 1) increased by 116,600 MT. Advances in sales to the EC and unknown destinations accounted for all of the increase. Outstanding sales for 1976/77 shipment now total 5.4 million MT, compared with 2.8 million MT for the same period a year ago.

Rice: The apparent export commitment for 1975/76 increased by 21,000 MT, largely reflecting higher commitments to Syria and Liberia. Rice commitments for the year now total 1.8 million MT, compared with 2.4 million MT for the corresponding period a year ago.

Soybeans: The apparent export commitment for 1975/76 increased 96,400 MT, primarily reflecting larger commitments to Japan, the EC, Portugal, and Israel. Commitments to unknown destinations declined 62,900 MT.

Exports during the week totaled 245,900 MT, primarily to Japan (97,600 MT), the EC (79,000 MT), Israel (29,400 MT), and Taiwan (24,700 MT).
